EDUCATION

Pune Institute Of Computer Technology <i>Bachelor of Engineering in Information Technology</i> CGPA: 9.73	Pune, IN Sept. 2024 – June 2027
Bharati Vidyapeeth University <i>Diploma in Computer Technology</i> Percentage: 95.14%	Pune, IN Sept. 2021 – June 2024

EXPERIENCE

Android Developer Intern <i>LSOYS Games and Apps</i>	Feb. 2025 – May 2025 Pune, IN
- Developed Android apps including Home Cleaning and Car Parking with user, admin, and provider modules using Java and XML. - Built QuakeCast, a location-aware app integrating Google Maps, Weather, and Alert APIs with Firebase for real-time data and notifications. - Designed interactive prototypes in Figma for Shopping and Tanker Booking apps to enhance UI/UX flow.	
Advanced Java Developer Intern <i>Pragati Institute</i>	June 2023 – Aug. 2023 Pune, IN
- Completed a 1.5-month Advanced Java internship focused on desktop application development and database integration. - Developed a full-featured Java app using Applets, Swings, and JDBC for real-time form handling and MySQL DB storage. - Designed responsive UI components and implemented CRUD operations to ensure smooth user experience.	

PROJECTS

EcoVation (Smart Waste Management System) <i>Android, React, Node</i> GitHub Repo	Aug 2025 – Sept 2025
- Built a multi-role waste management platform integrating Citizen, Driver, Green Champion, ULB Operator, and State Analyst modules across Android and web. - Implemented real-time waste tracking, QR-based verification, route management, and analytics using Firestore and OSMDroid. - Enhanced engagement with Green Points, Training, recycling marketplace, & event-driven environmental awareness.	
MentorTrack (Academic Tracker) <i>Java, React, Firebase</i> GitHub Repo	Jan 2025 – Mar 2025
- Developed an academic tracking system with role-based access for Admin, Teacher, Technician, and Student. - Enabled CSV-based account creation, mentor-student assignment, scheduling, record management, and career report generation using Gemini API. - Facilitated performance tracking, feedback, chat, meeting reminders, and AI-driven placement eligibility insights.	
Home Service Application <i>Java, XML, Firebase</i> GitHub Repo	Feb 2025 – Mar 2025
- Built three Android apps for User, Service Provider, and Admin with location-aware service discovery. - Enabled real-time location-based discovery of nearby providers within a 2 km radius. - Implemented admin approval, provider access control, and booking management system for users.	

TECHNICAL SKILLS

Core Subjects: OOP, DBMS, DSA, CNS, OS
Languages: C/C++, Java, Python, PHP, SQL (Postgres), JavaScript, HTML/CSS
Frameworks: Android SDK, Firebase, React.js, FastAPI
Developer Tools: Git, Android Studio, Visual Studio, IntelliJ, Eclipse

ACHIEVEMENTS

Won **First Prize** in a National Level General Knowledge Test.

Received the **Innovative Engineer Award**.

Achieved a State Rank of **#212 out of 50,000+** students.
