EDUCATION

Pune Institute Of Computer Technology

Bachelor of Engineering in Information Technology CGPA: 9.68

Pune, IN

Sept. 2024 – June 2027

Bharati Vidyapeeth University

Diploma in Computer Technology Percentage: 95.14%

Pune, IN

Sept. 2021 – June 2024

PROJECTS

EcoVation (Smart Waste Management System) | Flutter, React, Node, Supabase | Aug 2025 – Sept 2025

- Built a multi-role waste management platform integrating Citizen, Waste Worker, Green Champion, ULB Operator, and State Analyst modules across Android and Web.
- Implemented real-time waste tracking, Verification, route management, and engagement features like Green Points and recycling marketplace.

MentorTrack (Academic Tracker) | Android, React, Node, Firebase | Jan 2025 – Mar 2025

- Developed a role-based academic mentoring platform with dedicated Admin, Technician, Teacher, and Student portals featuring secure authentication and role-based access.
- Implemented bulk student onboarding via CSV, mentor assignment, meeting scheduling, placement reports, course and company management, performance analytics, and AI-powered internship insights.

OSPilot (Offline AI Desktop Assistant) | Python, FastAPI, LangGraph, Ollama | May 2026 – Jun 2026

- Built a offline AI desktop assistant combining Electron and FastAPI, powered by local Ollama LLMs and a LangGraph multi-agent architecture with parallel execution.
- Implemented a local RAG document engine with FAISS and SQLite, live system monitoring, AI coding assistant and desktop/browser automation using Playwright and PyAutoGUI.

WORK EXPERIENCE

Android Developer Intern

LSOYS Games and Apps, Pune

Feb. 2025 – May 2025

- Developed Android applications including Fixora and Car Parking, implementing role-based features, booking workflows, and Firebase-backed data management using Java and XML.
- Built QuakeCast and Green-Revive by integrating Weather APIs, Firebase, and ML APIs to provide real-time disaster updates and plant health analysis.
- Designed interactive Figma prototypes and developed responsive Android user interfaces and improved user experience.

Software Developer Intern

Custom Soft, Pune

Jan. 2026 – Apr. 2026

- Developed role-based Flutter applications for Business ERP and Hotel Desk, implementing features across Admin, Client, Sales Manager and booking manager modules.
- Implemented OTP authentication, ordering workflows, dashboard analytics, notifications, Google Maps integration, and profile management using Flutter, React, Node.js, Firebase, and Supabase.
- Contributed to web hosting, WordPress customization, and Razorpay payment integration across multiple projects.

TECHNICAL SKILLS

Core Subjects: OOP, Operating System, Data Structures & Algorithms, Computer Network, DBMS

Programming Languages: C++, Java, Python, HTML, CSS, JavaScript, SQL

Databases: MySQL, Supabase, MongoDB, Firebase

Tools & Frameworks: Android Studio, GitHub, Postman, VS Code, IntelliJ, Node.js, React.js

ACHIEVEMENTS

Secured a State Rank of #212 among 50,000+ students.

Received the Best Performer award during Advanced Java Internship Program at PCA Academy.

Earned the Innovative Engineer Award for technical creativity and problem-solving.

Won First Prize in a National-Level General Knowledge Test.
